Hey David, can you help address the questions below from the New York Times?

I'm also including OSWER folks in case they have info to add on their end.

Thanks all.

Greetings. I had a few additional questions below regarding the La Porte chemical plant. I can be reached at this email address or on my cell phone at 202-489-9582.

Thanks,
Manny

- 1. Can you tell me when DuPont submitted its risk management plan for the La Porte plant to the EPA?**
- 2. Was the plan ever reviewed or audited?**
- 3. Did the EPA ever conduct an on-site inspection of the DuPont La Porte plant to assess whether it was complying with the requirements of the risk management program? If so, can I get the details about the findings of those inspections?**
